

CHAPTER 14

ROADSIDE DEVELOPMENT

The Water Quality Enhancement Program design guidelines for the South Dakota Department of Transportation are not included in this design manual. Shown below is the outline of the Water Quality Enhancement Program design manual, which can be accessed by clicking [here](#).

Section 1: Purpose and Authorities

Section 2: Principles of Erosion and Sediment Control

Section 3: Erosion and Sediment Control Best Management Practices

Section 4: Managing the Construction Site

Section 5: Engineering and Design for Erosion Control

Section 6: Miscellaneous Erosion and Sediment Control Design Information

Section 7: Erosion and Sediment Control Product Specifications

Section 8: Glossary of Erosion Control Terminology
